- 12.40 pm-12.50 pm : Summary & Closing of the Workshop

Celebrating Innovation – a unique initiative by "iBaRT Expo 2018"

Indian clay brick and roof tile industry is passing through a transformation phase today. Policy and market – the 2 most important parameters influencing its very character – are changing by the day. These challenging circumstances are making the traditional Indian clay brick/tile manufacturer very much confused and a bit pessimistic about his future. To help him regain his confidence and motivate him to face the challenges posed by the ever-changing policy and market forces with full strength and vigour, iBaRT Expo 2018 – a platform created by Messe Munchen India Pvt. Ltd., Mumbai – is organizing an event "Celebrating Innovation" at The Exhibition Center, Gandhinagar (Gujarat), concurrent with Indian Ceramics Exhibition 2018.

At "Celebrating Innovation", we plan to recognize, honour and showcase a few noteworthy contributions made by creative and progressive clay brick/tile manufacturers and architects from all over India during the post-independence era. Mr. Anand Damle, Managing Director, De Boer Damle (India) Pvt. Ltd., Pune, shall moderate the event.

Technical Presentations Programme Schedule

(Workshop 2, Date: 08.02.2018, Time :- 1:30 pm – 5:30 pm, Venue: Hall -2)
